

Squirrels Autumn 1 - Curriculum Plan

English

In English, we will be writing play scripts inspired by the book *Tar Beach* by Martha Ringgold.

Then we will be looking at the story *Varmits*, where we will write an explanation.

Maths

In Year 3 we focus on place value to 1,000, recognising hundreds, tens and ones.

In Year 4, it extends to 10,000, adding thousands, rounding, and simple negatives.

RE

Our RE Topic is titled 'What do Christians learn from the Creation story?' So we will focus on Christians' beliefs and how it impacts their behaviour.

Science

We will be learning about Science in light and thinking about how we use light to see. Also, how shadows are formed and change due to the position of lights.

Art

As artists, we will be drawing to create 3D pictures focusing on tone and texture. Our final piece will be a composition for a mixed-media drawing.

Music

We will be focusing on pulse, the heartbeat of any piece of music. Children will learn to feel and keep a steady pulse, recognise it in different songs.

Geography

In Geography, we will be focusing on the disasters volcanos, earthquakes and tsunamis. We will look at how they are created and the damage they cause.

PSHE

With Mrs Ghirandelli, we will be learning how to navigate relationships with confidence and empathy to create a respectful school environment.

Computing

We will be focusing on computing systems and networks this half term and understand how our school computer systems work.

French

The Squirrels will be learning the basics of how to introduce themselves and some basic vocabulary such as numbers and colours.
